Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant contacted the examiner and amendments were made to the claims. Authorization was granted to the examiner to make an examiner amendment placing the application in conditions for allowance. A prior art search was done in view of the new language and language was drafted to read over all prior art especially US 2003/0211813 A1. The Prior Art does not function with the removal of the vacuum source or pressure where as the cavity of the applicants invention, traps the pressure so that it works without a vacuum source and/or the removal of vacuum source. The applicant does not need to provide a summary of the interview because the record is complete. This is correction to the error made on 2/1/06 the correction have been underlined by hand.
